*\*Note: All 16x8 Raptor wheels are Load Rated at 1150kg*

## GREAT NEW APPLICATIONS

# Raptor

Raptor has the correct load rating for every application, plus for applications with a smaller bolt pattern like the new VW Amarok with 5/120 PCD, Raptor utilises a smaller centre cap for that perfect look. Raptor also fits a great range of SUV's with 5/114.3 PCD - bolt pattern.

**Check out the great new Raptor applications at our online fitment guide**

*\*\*Small Cap fits - Nissan 6/114.3, VW Amarok 5/120, Hilux 4x2, X-Trail, Escape, Kluger, etc. 5/114.3*
