COMMODORE WHEEL NUTS, CBL RINGS, SOCKET ADAPTOR & LOCK NUT SET

Wheel Nuts:

The current model VE Commodore has 5/120 Bolt Pattern and 14x1.5 wheel nuts. Mullins wheel nut Part No. is 405-215

Socket Adaptor - For Wheel Nuts:

The VE wheel brace supplied with the vehicle, suits the original wheel nuts only. To cater for this Mullins will provide a socket adaptor to go from a 22mm drive to 19mm internal hex. Our socket adaptor Part No. is 402-216

CBL Ring:

The VE Commodore hub has a 66.7 bore register and our CBL Ring (Centre Bore Locating Ring) for this vehicle is Part Number 405-BL697668HP. This CBL ring is then fitted inside another CBL Ring Part No. 405-BL73696. This combination fits all of our alloy wheels with a 73.0 mm centre bore hole.

Lock Nuts:

Mullins lock nut set is Part No. 440-TS14
